

25 March 2020

Dear people we support and families,

This week has been a week of participation. Our leadership team has been, and will continue working alongside local, provincial and federal leaders, in an effort to prepare for what might come next. Whether that's good news or difficult news, we wanted you to know that we are being planful and responsive to these uncertain times.

To make sure we are sharing the most up to date and relevant information for you, we are taking a short pause on our communications. As we noted earlier, if you feel you may have missed a communication from us, clgw.ca/covid19 has all up-to-date communications to people we support and their families.

At this time, day programs and public access to all CLGW locations remain suspended.

Wellington Dufferin Guelph Public Health has the most up to date information, as well as helpful resources to point to through all of this. As an organization, we follow the lead of local public health officials, as well as provincial and federal health bodies. Resources and up to date facts are available at: <https://www.wdgpUBLICHEALTH.ca/your-health/covid-19-information-public>

We will continue to keep you informed of any new developments, and you can read the latest at: clgw.ca/covid19

Regards,

Laura Hanley
Executive Director

Gerry Walsh
Board President
