

2 July 2020

Dear people we support and families,

This week, we have finalized [Lessening Restrictions – Phase 2](#). Please give it a read.

In Phase 1, we worked diligently to setup safe outside family visits for the people we support. Our next phase is focused on going for drives in a Community Living Guelph Wellington vehicle.

In an effort to promote mental health and well-being, drives are a helpful way to reconnect the people we support with things they enjoy outside of their immediate neighbourhood.

As of July 3rd, 2020, people we support can go for a drive up to two times per week, up to 2 hours per drive in a CLGW vehicle with a Direct Support Professional.

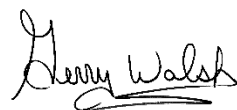

This phase also offers greater flexibility, so that the people we support can drive-by a family member or friend's house and visit, while staying within the vehicle and having good physical distancing practices.

If you have any questions or concerns, please connect with your residence's supervisor.

We will continue to keep you informed of any new developments, and you can read the latest at: clgw.ca/covid19

Regards,

Laura Hanley
