

1 September 2020

Dear people we support and families,

On Friday, we learned from the Ministry of Children, Community and Social Services that a number of restrictions were being lifted immediately. These restrictions centred on visiting with friends and family, attending school, shopping, errands, appointments, and essential overnight absences.

Thankfully, we have some guidelines in place to support appointments, errands, and having friends or family visit at the residence. Over the next couple of weeks, we will be developing more guidelines to support these lessened restrictions, promoting the safety and health of everyone involved.

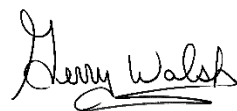

We appreciate your understanding through this process. If you have any feedback, ideas, or concerns, please connect with your residence's supervisor.
